

MOST 'NEW' STEPS SIMPLY REVAMPED

Al Fields Has Studied
Dancing for Years
and He Knows

"Somebody is always announcing a new dance, a new step or a new method of dancing," said Al G. Fields, America's famous minstrel, who will be seen at Convention hall, on Wednesday, March 23.

"At the risk of being claimed with those who are said to be 'Always taking the joy out of life,' I'm going to tell you something about some of these new dance steps, and it is the truth," he said. "There isn't a dance of a particular dance movement that isn't as old as the hills."

Argentina Originated Tango. There's the tango—it may have been new to a lot of highbrow dancers at home and abroad. The tango comes from Argentina and other South American lands and it isn't really different in many respects from several dances that have been known and practiced in this country in certain quarters for many years. "There's the Jim Crow dance, too. Somebody not long ago tried to use this old favorite with a brand new label, proclaiming it the handiwork of a certain dancing master. It was no such thing. I know because I know the history of American dances pretty well. The Jim Crow dance was originated by T. D. Rice, afterwards nicknamed 'Jim Crow' Rice, after the dance 'Jim Crow Dance' Old.

"However, there is a difference in the way the old dance has been executed by some of the exponents of the modern dance, lately. I might say that I'm in favor of their execution, instead of that of the dance, the dancing master referred to."

taught his pupils to dance the 'Jim Crow' step. "Now all the old-time minstrel men know this dance and they all planned from the southern plantations—a loose-jointed, double shuffle, heel down, back shuffle. The negroes danced it back on the old plantations and Rice copied it from them. There's nothing modern about it except the stiff leg part of it."
